

# Racores accesorios Sprint® Serie S2000 en latón

Conexiones roscadas: cilíndricas (G1/8, G1/4, G3/8, G1/2),  
cónicas (R1/8, R1/4, R3/8, R1/2)

Los racores accesorios Sprint® se caracterizan por la gran fiabilidad de las roscas hembras, cilíndricas y cónicas, con superficies no lisas.

Los modelos Sprint son dotados de un particular sistema de cierre, ya alojado en la rosca cónica, que sustituye al empleo de colas líquidas o de cinta de teflón (PTFE), optimizando la fase de montaje.

Este sistema de cierre permite montar y desmontar el racor varias veces sin perjudicar el cierre de su rosca.

## CARACTERÍSTICAS GENERALES

<b>Roscas</b>	GAS cónico ISO 7 ( BSPT ) GAS cilíndrico ISO 228 ( BSP )
<b>Temperatura</b>	-40°C ÷ 120°C
<b>Fluido</b>	aire comprimido y otros fluidos a baja presión
<b>Materiales</b>	latón niquelado y PTFE
<b>Presión</b>	80 bar
