Bellows suction pads (round) for Packaging

Series VPCL - 1,5 folds

Suction pads in Elastodur ED-65.

Diameters from 4 to 80 mm with thread size M5, G1/8 and G1/4, both male and female.

Series VPCL suction pads consist of a nipple and rubber part which are delivered assembled. Both components can be ordered separately as spare parts.

These suction pads are very suitable for the handling of packagings like rigid cardboard boxes or trays.

Common applications are:

- Palletising and de-palletising processes
- Heavy-duty applications in terms of hold and wear.
- Loading from the top and from the side in cartoning machines.

- » Elastodur ED-65 guarantees a high resistance to wear, tripling the service life compared to NBR.
- » Optimised design that guarantees a high suction force despite its small dimensions.
- » High rigidity and stability even during strong accelerations or emergency stops.
- » Optimum hold on cardboard and rigid packaging thanks to the adaptable sealing lip.
- » Good adaptability to curved and uneven surfaces.
